

Report of the Foundation "Children's Future" for 2022

Ukraine, Kyiv

History of the Foundation "Children's Future"

- In the first months of the Russian aggression, it became clear that many Ukrainian children would lose their normal lives and access to education.
- An initiative group of people organizes free access to full-fledged distance learning on the Optima platform.
- Financial assistance from Western partners is being provided to implement the large-scale project.

- The project of access to quality distance education during the war becomes the impetus for the creation of the charitable foundation "Children's Future".
- As a result, 100,000 displaced Ukrainian children were able to finish the 2022 school year and receive their education documents.
- In cooperation with Optima, the largest Ukrainian distance learning school, and other partners, the Foundation starts working on the following projects.

Foundation's strategy

Foundation's mission

The Foundation "Children's Future" is an influential agent of change in Ukraine's education system through the use of the latest digital technologies.

Foundation's vision

Ukrainian children and adults affected by the war have access to quality education regardless of their location and resources.

Areas of activity of the foundation "Children's Future"

1. Access to quality education for Ukrainian children, including vulnerable categories.
2. Support (development) of Ukrainian national identity, particularly for Ukrainian children abroad.
3. Development, implementation, and promotion (popularization) of new forms and areas of education.
4. Education of children with special needs.
5. Development of the organization, increasing the level of organizational capacity.

Foundation projects in 2022

Access to distance learning for children in the first months of the war

- The “Optima” School and the Foundation "Children's Future" have organized open (free) access to distance learning programs for general secondary education.
- The financial and computing resources of Western companies were attracted. As a result, we managed to organize the work of the distance learning platform and the work of teachers.
- In March-June 2022, **100 107** children had the opportunity to study remotely on the "Optima" platform regardless of their location, complete the school year and receive official educational documents.

Foundation projects in 2022

Charitable scholarship program for the 2022/2023 academic year

- The "Optima" School and the Foundation "Children's Future" organized a year-long charity scholarship program for full-fledged distance education for children who have suffered the most from Russian aggression.
- Categories of children who received scholarships:
 - evacuated from the territory of active hostilities;
 - who live in the occupied or liberated territories;
 - children of military personnel;
 - children whose parents were killed during the war;
 - children with post-traumatic effects due to the war.
- **846** children received annual charitable scholarships at the "Optima" distance school to study under the "Student", "External" or "We are from Ukraine" packages during the 2022/2023 academic year.

Foundation projects in 2022

Free access to educational content for primary school students

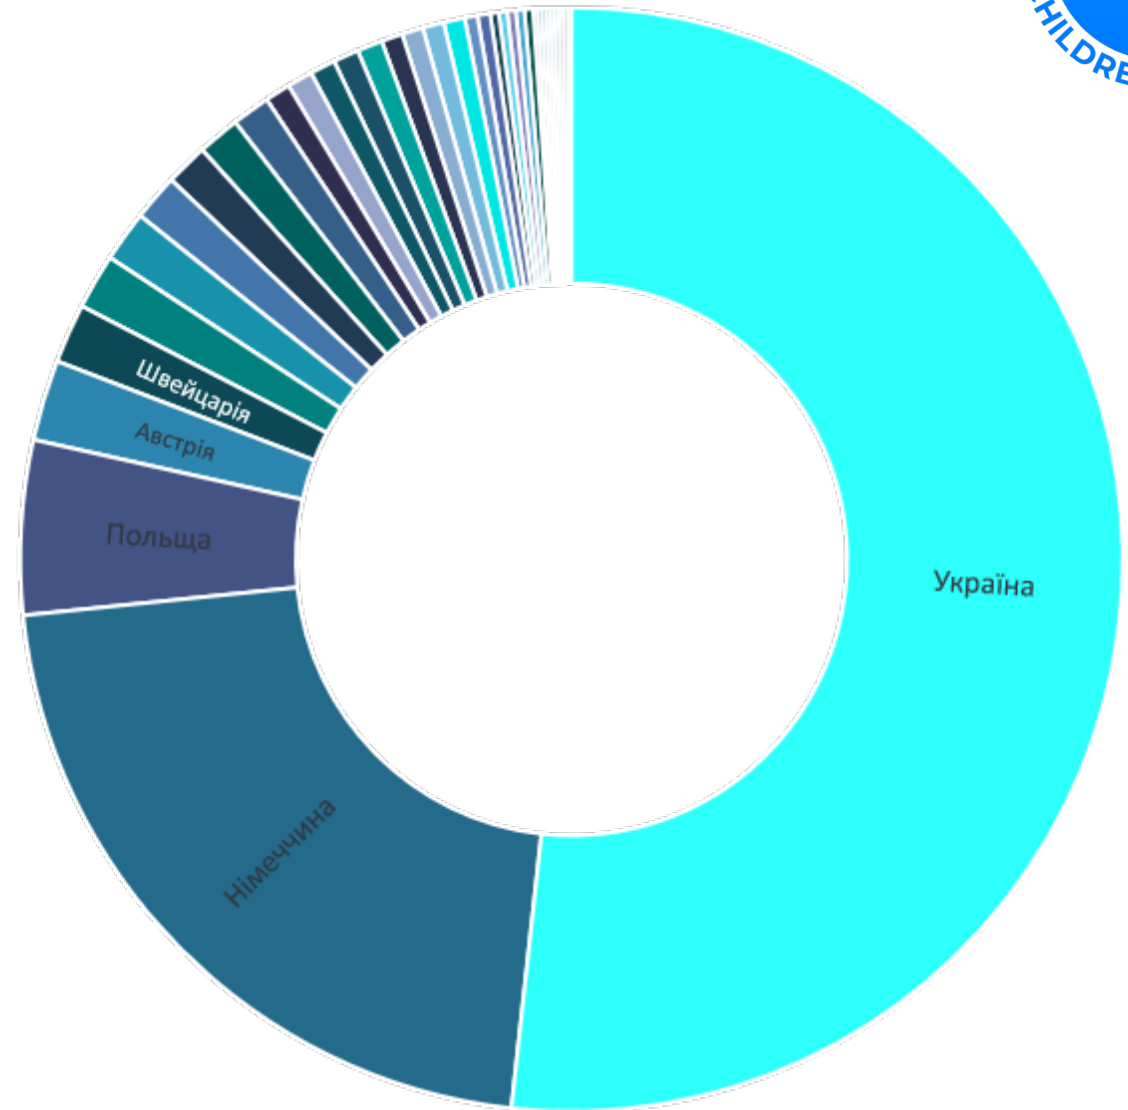

- Since 1 November 2022 (the beginning of Russian attacks on Ukraine's energy infrastructure), "Optima" School, with the help of the Foundation "Children's Future", has organized open (free) access to educational content for asynchronous learning for students in grades 1-5.
- **3 332** primary school students of Ukrainian secondary schools received free access to quality educational materials by the end of the current academic year and the opportunity to receive a grade statement.

Perspective projects of the Foundation

CHARITABLE FOUNDATION
CHILDREN'S FUTURE

- Scholarship program for the 2023/2024 academic year for children from the most vulnerable categories:
 - children whose parents died;
 - children whose parents are military personnel (active and discharged due to disability)
 - displaced as a result of the war;
 - who have post-traumatic consequences and health problems
- Recovery courses. Quickly catching up with the school program for children who were unable to complete their education due to the war.
- Support for education under the Ukrainian program for Ukrainian refugee children abroad.
- Implementation of combined learning in secondary schools (as part of an experiment with the Ministry of Education and Science).
- Organization of independent combined learning centers in the affected and remote regions.
- Development of distance learning programs for children with special needs
